PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

The FIFRA provides that the Administrator of the United States Environmental Protection Agency must, in cooperation with the Secretary of Agriculture, use the services of the cooperative State extension services to inform and educate pesticide users about accepted uses and other regulations made under subchapter II of FIFRA. This goal is accomplished through the PSEP. States may use up to 10 percent of their PSEP budget to fund new equipment.

In accordance with the “Memorandum of Agreement Between the U.S. Environmental Protection Agency and the U.S. Department of Agriculture of June 14, 1972,” and subsequent amendments, CSREES has established an Interagency Agreement for training with EPA as noted in Section 23 above, as amended, on behalf of the State Cooperative Extension Services. CSREES has coordinated the training program with the State Cooperative Extension Services with the concurrence of EPA, by distributing and administering PSEP funds on a formula basis, and has on file “Plans of Work” from each State Cooperative Extension Service for pesticide applicator training.

The State Cooperative Extension Services are encouraged to coordinate training activities with State Lead Agencies and to ensure that all training is compatible with Federal and/or State administered certification programs. Beginning with Fiscal Year 1991, the Interagency Agreement stipulates that the training must address requirements for certification as defined in 40 CFR 171.

In FY 2007, CSREES conducted a Grants.gov pilot for the solicitation of one of the CSREES Formula Programs, the McIntire-Stennis Cooperative Forestry Program. Under this pilot the institutions were required to submit a SF-424M Application (Cover Page Form), CSREES Supplemental Form, and Key Contacts Form through Grants.gov. Please note that this application package replaced the forms/information solicited each year by the CSREES Office of Extramural Programs and did not duplicate the information being collected under the Performance Planning and Reporting System (PPRS). CSREES is implementing this process for all CSREES Formula Programs in FY 2008 due to the mandated reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA). Under this law, the U.S. Office of Management and Budget (OMB) was required to develop and maintain a public searchable data base for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet Data Universal Numbering (D-U-N-S®) numbers, legal names of institutions, legal addresses, congressional districts, etc.). OMB makes this information available at <http://www.usaspending.gov>. The law also requires by January 1, 2009, subaward data be made available through the same public website.

Please note that the submission of this application package does not change the following:

- Delegated authorities of the Extension Director;
- How funds are managed at your institution;
- Indirect costs and tuition remission are unallowable costs; and

-Matching waiver authority of Smith-Lever section 3(b) and 3(c) funds for 1862 Land-grant Institutions in the Insular Areas.

Guidelines for the administration of this program are published as Chapter III, Financial Operations, of the Administrative Handbook for Cooperative Extension Work, which may be accessed at <http://www.csrees.usda.gov/business/awards/formula/manuals/coopextension.pdf>. Please note that any instructions in this FGO supersede policies and procedures identified in this manual. CSREES will be revising this manual and will promulgating administrative provisions for this program through rulemaking which includes a public comment period in 2009.

B. Purpose and Priorities

The purpose of the PSEP are to help assure the proper, effective, and safe use as well as storage and disposal of pesticides; to assist both private and commercial applicators in meeting the initial and continuing standards of certification to apply restricted use pesticides; and to address adverse risks associated with pesticide misuse and consequences of pesticide drift. Emphasis should be placed on personal safety, protection of the environment, prevention of pesticide drift, endangered species, water quality, and food safety.

PART II—AWARD INFORMATION

A. Available Funding

FY 2008 Federal funding of \$1,700,000 will be distributed according to allocations determined by EPA. See Appendix A for specific allocations.

No expenditures can be charged to the PSEP that do not directly relate to the objectives above. Restrictions that apply to Smith-Lever Act funds apply to PSEP funds. Funds allocated for the PSEP are available for expenditure during the fiscal year in which they are allocated plus one additional fiscal year. These funds are available for expenditure from October 1, 2007 through September 30, 2009.

B. Type of Submission

In FY 2008, pre-award form submissions must be submitted to the PSEP as a “new” application on the www.grants.gov website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Performance Planning and Reporting System (PPRS), and together satisfy all legislative and regulatory pre-award requirements.

C. Project Types

Applicants should request funding at the amounts listed in Appendix A to this announcement. CSREES will fund the PSEP in FY 2008 for approved PSEP projects. Projects consist of informing and educating pesticide users about accepted uses and other regulations made under subchapter II of FIFRA. States may use up to 10 percent of their PSEP budget to fund new equipment.

PART III—ELIGIBILITY INFORMATION

A. Eligible Recipients

Applications may be submitted by the 1862 land-grant institutions in the States identified in Appendix A.

Award recipients may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project.

B. Cost Sharing or Matching

7 U.S.C. 136u(a) states that “Effective with the fiscal year beginning October 1, 1978, there are authorized to be appropriated annually such funds as may be necessary for the Administrator to provide through cooperative agreements an amount equal to 50 percent of the anticipated costs to each State or Indian tribe, as agreed to under such cooperative agreements, of conducting training and certification programs during such fiscal year. If funds sufficient to pay 50 percent of the cost for any year are not appropriated, the share of each State and Indian tribe shall be reduced in a like proportion in allocating available funds.”

PART IV—SUBMISSION INFORMATION

A. Address to Request Formula Grants Opportunity Package

Only electronic applications may be submitted via Grants.gov to CSREES in response to this FGO.

Prior to preparing an application, it is suggested that the State Extension Director, or his or her designee, first contact an Authorized Representative (AR) to determine if the organization is prepared to submit electronic applications through Grant.gov. If the organization is not prepared, the AR should see http://www.grants.gov/applicants/get_registered.jsp for steps for preparing to submit applications through Grants.gov.

The State Extension Director, or his or her designee, also must contact the institution’s AR in order to be granted permission for the submission of applications through Grants.gov. Once that permission is granted, the State Extension Director, or his or her designee, can obtain a login and password.

The steps to access application materials are as follows:

1. Download and install Adobe Reader, a small, free program that provides access to the grant application. See http://www.grants.gov/help/download_software.jsp.
2. The application package must be obtained via Grants.gov, go to <http://www.grants.gov>, click on “Apply for Grants” in the left-hand column, click on “Step 1: Download a Grant Application Package and Instructions,” enter the funding opportunity number “USDA-CSREES-SLBCD-001807” in the appropriate box and

click “Download Package.” From the search results, click “Download” to access the application package.

If assistance is needed to access the application page (e.g., downloading or navigating PDF forms, using Adobe with a Macintosh computer), refer to the resources available on the Grants.gov Web site first (<http://grants.gov>). Grants.gov assistance is also available as follows:

7 U.S.C. 136u(a) states that “Effective with the fiscal year beginning October 1, 1978, there are authorized to be appropriated annually such funds as may be necessary for the Administrator to provide through cooperative agreements an amount equal to 50 percent of the anticipated costs to each State or Indian tribe, as agreed to under such cooperative agreements, of conducting training and certification programs during such fiscal year. If funds sufficient to pay 50 percent of the cost for any year are not appropriated, the share of each State and Indian tribe shall be reduced in a like proportion in allocating available funds.”

(3) Indirect Costs and Tuition Remission

In accordance with section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3319), indirect costs and tuition remission are unallowable as CSREES formula grant expenditures. Because the same restrictions that apply to Smith-Lever Act funds have applied to PSEP funds, indirect costs and tuition remission are unallowable as PSEP expenditures, as well. The same restrictions apply to the matching contributions.

PART VIII—OTHER INFORMATION

A. CSREES' Grants.gov Implementation Plans

CSREES is continuing to develop its capacity to exchange proposal and grant data electronically with its grantees through [Grants.gov](https://www.grants.gov) and to process, review, and award proposals and grants electronically.

In Fiscal Year (FY) 2007, CSREES conducted a pilot on the submission of the SF-424 Mandatory application package through the Grants.gov website for the McIntire-Stennis Cooperative Forestry Research Program. The pilot was successful as all eligible grantees submitted their applications through Grants.gov.

The Federal Funding Accountability and Transparency Act of 2006 requires all Federal agencies to report monthly to a publicly-accessible website on all Federal assistance awards (including grants). This requirement became effective for all awards made in FY 2007 and thereafter.

As a result, for the FY 2008 (October 1, 2007-September 30, 2008) cycle, CSREES is requiring electronic submission through Grants.gov for all Federal assistance programs (i.e., grants). For more information about CSREES' Grants.gov plans, including important announcements, program implementation details, and detailed requirements, see the CSREES' web site, http://www.csrees.usda.gov/business/other_links/egov/egov.html. the information on these web sites will be updated as appropriate. It is suggested that the sites be visited periodically for important updates.

B. D-U-N-S® Number

A D&B Data Universal Numbering System (D-U-N-S®) number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of over 70 million businesses worldwide. A Federal Register notice of final policy issuance (68 FR 38402) requires a D-U-N-S® number in every application (i.e., hard copy and electronic) for a grant or cooperative agreement (except applications from individuals) submitted on or after October 1, 2003. Therefore, potential applicants should verify that they have a D-U-N-S® number or take the steps needed to obtain one. For information about how to obtain a D-U-N-S® number go to <http://www.grants.gov/RequestaDUNS>. Please note that the registration may take up to 14 business days to complete.

C. Required Registration for Grants.gov

The Central Contract Registry (CCR) is a database that serves as the primary Government repository for contractor information required for the conduct of business with the Government. This database will also be used as a central location for maintaining organizational information for organizations seeking and receiving grants from the Government. Such organizations must register in the CCR prior to the submission of applications via grants.gov (a DUNS number is needed for CCR registration). For information about how to register in the CCR visit the “Get Started” section at <http://www.grants.gov>. Allow a minimum of 5 days to complete the CCR registration.
